Thesis title: Situated predictors of hair-pulling
Thesis advisor: Dr Lawrence Barsalou

BA (Hons) Psychology

University of Strathclyde; School of Psychological Sciences and Health
2014 – 2018
First class honours

Studied the conditions of human behaviour – how we learn, remember, coordinate our actions and interact with others – and the reasons for differences between individuals, such as personality or intelligence. Modules studied at Honours level included;

- The Psychology of Mental Health
- Belief and Anomalistic Experience

- Health Psychology
- Neuropsychology of Ageing and Dementia
- The Psychology and Cognitive Neuroscience of Face Recognition
- Critical Review (The Relationship Between Child Abuse and Dissociation)
- Dissertation

Dissertation title: The role of theory of planned behaviour in Type D personality and alcohol use

Dissertation supervisor: Dr Lynn Williams

RESEARCH EXPERIENCE

Research Intern

Humboldt-Universität zu Berlin; Clinical, Biological and Cognitive Departments
2017

Completed an ERASMUS summer placement to further develop research skills. Responsible for data handling and analysis (Clinical department) and data collection (Cognitive/Biological departments).

Data handling techniques involved standardising test scores for anxiety and depression. Data analysis involved using QRSTool to analyse participant heart rates and using BrainVision Analyser 2.1 to remove artefacts. Produced a report on training OCD participants to respond positively to errors.

Data collection techniques involved running participants on EEG for studies on lexical decision making as part of a group task (Cognitive) and the effect of oxytocin on the regulation of emotional expression in young mothers (Biological). Responsibilities involved preparation surrounding the peeling and electrode gel for participants being ran on the EEG, administering computer programmes associated with EEG and cleaning up electrodes and scalp mask afterwards.

AWARDS AND HONOURS

Academic Citizen for Fourth Year

University of Strathclyde; School of Psychological Sciences and Health
2018

Awarded main award for academic citizen for fourth year for work as president of psychology society.

DEPARTMENTAL/UNIVERSITY SERVICE

Psychology Society President

University of Strathclyde; School of Psychological Sciences and Health
2017 – 2018

Worked closely with the department to re-launch and develop the Psychology Society. Role involved planning meetings, setting strategy and overseeing the overall work of the committee. Organised and co-hosted the first Psychology society Careers Event, with speakers from the areas of Clinical, Educational, Occupational and Forensic Psychology. Organised an educational documentary night exploring the themes of autism and obsessive-compulsive disorder. Oversaw the creation of the grad ball sub-committee and acted as a committee member in organising this large-scale event.

Class Representative for 3rd Year

University of Strathclyde; School of Psychological Sciences and Health
2016 – 2017

Role involved liaising with the department regarding the student experience and any positive or negative feedback in relation to the course. Developed team-work, communication and conflict resolution skills.

EXTRACURRICULAR UNIVERSITY SERVICE

Debates Society Socials' Convenor

University of Strathclyde
2017 – 2018

Organised social events for the debates society to encourage high levels of attendance and engagement with the society. Developed skills around public speaking, critical thinking and forming arguments.

RELATED PROFESSIONAL SKILLS

Skills development: time management, academic writing, presentations, team-work, communication, leadership
